57
GURDWARAS

Following the footsteps of
the Sikh pioneers in Africa
Sikhs first came to the shores of Africa in the early 1900s,
with the British colonists. Over the past century they have
spread far and wide across the continent and set up 57
Gurdwaras across 12 countries in Africa. Some of them
were built in the early 1900s, while many more have
come up in the recent years.
